

ANDREY VERBOVSKIY

Objective

Motivated and passionate student with the intention of gaining more working experience. Hardworking and open-minded, seeking of a chance to introduce already gained abilities. Talkative team player, that values positive working atmosphere and constant communication. Opened for new challenges and for becoming a part of a big and friendly team of professionals.

Education

METROPOLIA UNIVERSITY OF APPLIED SCIENCES

2019 - 2023

Graduated Bachelor degree in Information technology. (249 cr)

Subjects included Machine Learning, Mathematics and other related to the job

UNIVERSITY OF OULU

2023 - 2025

Masters degree in Computer Science and Bussiness Analytics

Projects

Besides my studies, I have experience in building smart models, diverse data operations, advanced python and C++ coding. Have various projects like big data and speech analysis researches, amazon drone deport locations prediction, corona aware mobile app and many other that were completed on my free time.

Work Experience

NOKIA ADVANCED TECHNOLOGY GROUP

NOVEMBER 2021 - NOW

Coding and machine learning intern & future leader in technology program

During the internship I have been working on different ML projects like Graph Analytics, Time Series analysis/forecasting and a Big Data processing cluster. During the internship I was also involved into team leading several projects, some were initiated by me, while some were entrusted by higher management.

Activities

TUTORSHIP

2016 - NOW

I have been tutoring math for many years in both university and high school

TEAM LEADING

2019 - NOW

As a part of my professional journey, I have been going through several practices of team leading and management of teams of professionals. This includes leading Machine Learning, industrial management and mobile/web development teams of up to 7 people per team.

Examples of the projects are Graph Analytics, Mobile Platform for internal events, organization of official Nokia Hackathon challenge and many other.

Some of these projects I initiated myself as I saw some issues either in organization or missed opportunities that I could solve. Through the process I had to make several presentations and even negotiate with higher management, heads of Groups and units to make them possible.
